INSTRUCTION BOOKLET

UBISOFT™

PLEASE CAREFULLY READ THE SEPARATE HEALTH AND SAFETY PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions	**Eye or muscle twitching**	**Loss of awareness**
Altered vision	**Involuntary movements**	**Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠WARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

⚠WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

INTRODUCTION

EPISODE III: *REVENGE OF THE SITH*

War! The Republic is crumbling under attacks by the ruthless Sith Lord, Count Dooku. There are heroes on both sides. Evil is everywhere. In a stunning move, the fiendish droid leader General Grievous has swept into the republic capital and kidnapped Chancellor Palpatine, leader of the Galactic Senate.

As the Separatist Droid Army attempts to flee the besieged capital with their valuable hostage, two Jedi Knights lead a desperate mission to rescue the captive Chancellor.

Anakin Skywalker and his mentor Obi-Wan Kenobi manage to infiltrate the unyielding droid defense and enter the Separatist Control Ship. Will they succeed in their mission? Can they save the Chancellor's life and their own? Using their lightsabers and Jedi powers, the two Jedi Knights fight hard to incapacitate the Separatist guards.

Both Jedi are marked by fate. Both will face ultimate choices and sacrifice. And the dark side is more prevalent than ever, leaving only pain and suffering in its path. Hearts are destined to be broken and lives destroyed. Which path will you choose?

CHARACTERS

ANAKIN SKYWALKER

Young Anakin Skywalker is known by some Jedi as the Chosen One spoken of in prophecy. Anakin is courageous and most likely to be the first one to jump into action. He is extremely agile and is powerful with both the Force and the lightsaber.

OBI-WAN KENOBI

Obi-Wan Kenobi is a young Jedi Master. He is both mentor and friend to Anakin Skywalker. Obi-Wan is very clever and has great knowledge of battle tactics and strategies.

COUNT DOOKU/DARTH TYRANUS

Behind his charismatic façade Tyranus is a dangerous and extremely powerful Sith Lord with masterful skills in the old style of lightsaber combat. This Sith Lord is more than a challenge for any Jedi, be it Knight or Master.

MACE WINDU

A man of powerful words, Master Windu has influenced many Jedi Knights. Obi-Wan and Anakin hold him in the highest regard. Mace is strong in the ways of the Force and has a unique style of lightsaber fighting.

GENERAL GRIEVOUS

General Grievous is the leader of the Separatist Droid Army. This alien cyborg has cut a path of carnage all over the galaxy. He especially prefers to fight Jedi Knights and proudly displays his collection of lightsabers around his belt.

PADMÉ AMIDALA

Padmé and Anakin are secretly married, despite the fact that romantic love is forbidden by the Jedi code. They now await the birth of a child, but Anakin is haunted by nightmares in which both his wife and child perish.

PALPATINE/DARTH SIDIOUS

The Supreme Chancellor Palpatine is in fact Darth Sidious, the Dark Lord of the Sith for whom the Jedi council has been searching. At the right moment he will reveal his true nature to the world and declare himself Emperor.

THE GAME

GAME SCREEN

Health Bar: The amount of energy your Jedi has remaining. If this bar reaches zero, you will lose a life.

Fury Bar (Red): The amount of Fury Anakin has accumulated by hitting enemies.

Focus Bar (Green): The amount of Focus Obi-Wan has collected by using Force moves.

Customization Points: The number of Customization Points your Jedi has found.

Force Bar: The amount of Force energy your Jedi has remaining. If this bar reaches zero, your Jedi won't be able to do a Force move. The Force Bar refills after a short period of time.

Life Icons: The number of lives your Jedi has left.

MENUS

Options

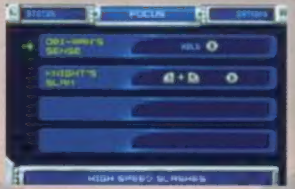
You can access the Options menu by pressing the L Button while in the Pause menu. In this menu, you'll be able to turn the music and sound effects on and off, change missions (go back to the Mission Selection screen), and resume or quit the game in progress.

Pause/Status Screen

You can access the Pause/Status screen by pressing START while playing.

In this screen you have access to your Jedi's status: your Force powers level, strength, stamina, and intuition.

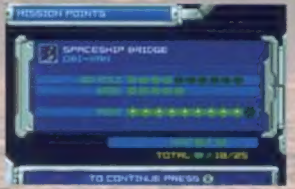
Fury/Focus Screen



You can access the Fury/Focus screen by pressing the R Button while in the Status screen.

In this screen, you can see the acquired super moves for your Jedi and how to perform them.

Mission Points Screen



When the mission is finished, you'll earn Mission Points that will allow you to get some Force powers. Those points are based on three things:

- **Jedi Style:** Each character has his own style, based on his use of the Force and Jedi powers:
  - **Anakin:** Based on aerial attacks, combos, Force powers, and Fury moves.
  - **Obi-Wan:** Based on combos, Force powers, deflection, environment interactions, and Focus moves.
- **Speed:** The faster you finish the mission, the more points you earn.
- **Bonus:** The number of Customization Points you found during your mission.

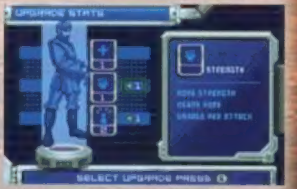
Customization Screen

In the Customization screen, you can acquire new Force powers or simply upgrade the ones you already have.

- **Control Pad:** Select Force power.
- **A Button:** Get selected Force power.
- **SELECT:** Show information about selected Force power.
- **START:** Exit Customization screen.

You can't get a Level 3 Force power if you don't already have Levels 1 and 2.

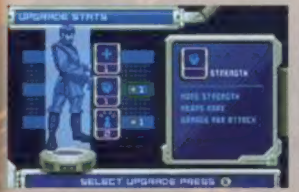
Stats Upgrade Screen



After each completed mission (except for the Boss missions), you'll be able to add some points to your stats. There are three stats you can upgrade:

- **Stamina:** Increases your Life Bar.
- **Strength:** Increases the damage you inflict.
- **Intuition:** Increases the Force Bar and replenishes Force energy quicker.

Mission Selection Screen



In the Mission Selection screen, you can select the mission you want to play. You can always load a previous mission in order to achieve 100% and get more Customization Points.

Push: Obi-Wan can push his enemies away from him. Hold the R Button and press the Control Pad in the direction you want to push the enemy.

Shield: Obi-Wan can create a shield to protect himself against enemies for a short period of time. Hold the R Button and press the Control Pad Up to perform the Shield move.

Mind Trick: Obi-Wan can stun enemies in front of him for a short period of time. Press and hold the R Button and then press the Control Pad Down to perform a Mind Trick move.

Anakin Force Powers

Saber Throw: Anakin can throw his lightsaber at enemies. Hold the R Button and press the B Button to perform the Saber Throw move.

Absorb: Anakin can absorb his enemies' health and convert it into Fury points. Hold the R Button and press the Control Pad Up to perform the Absorb move.

Pull: Anakin can pull his enemies toward him. Hold the R Button and press the Control Pad in the direction you want to pull the enemy.

Push: Anakin can push his enemies away from him. Hold the R Button and press the Control Pad in the direction you want to push the enemy.

Rage: Anakin can increase the amount of damage inflicted on his enemies for a short period of time. Hold the R Button and press the A Button to perform the Rage move.

Choke: Anakin can choke enemies. Press and hold the R Button and press the Control Pad Down to perform the Choke move.

PICKUPS

Bactatank: Increases your Health energy.

Force Shadow: Increases your Force energy.

Yoda's Protection: Obi-Wan only: Gives Obi-Wan a temporary shield to protect himself against all enemies, and a boost of Focus.

Palpatine's Order: Anakin only: Gives Anakin a temporary increase in strength to inflict more damage against all enemies, and a boost of Fury.

Extra Life: Gives an extra life.

MULTIPLAYER MODE

Make sure your two Game Boy Advance systems are properly connected. From the Main Menu, select Multiplayer using the Control Pad, and press the A Button to confirm. There are two options: Cooperative mode and Last Jedi Standing mode.

COOPERATIVE MODE (CLONE WARS)

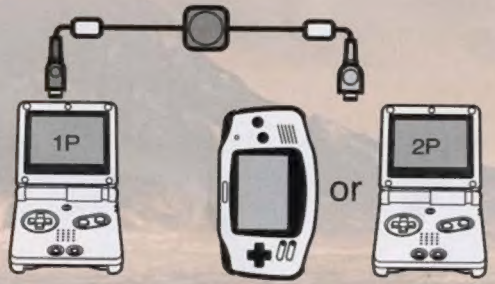
In Cooperative mode, players fight side by side during the Clone Wars. Players can choose Anakin or Obi-Wan and load their enhanced characters from Single-Player mode.

LAST JEDI STANDING MODE

In Last Jedi Standing mode, both players are dropped into an arena with a nonstop flow of enemies. The last Jedi to survive wins the game. Both players start with one full Life Bar; killing enemies will give a small boost in health. Get out there and fight like a true Jedi!

In this mode, players cannot load their enhanced characters from Single-Player mode.

MULTIPLAYER CONFIGURATION



HINTS

- Some special pickups are hidden in objects and environments.
- Use objects and enemy fragments to your advantage.
- During a duel, study your opponent's motion carefully.
- In Cooperative mode, Obi-Wan can heal Anakin.
- In Cooperative mode, you can steal a life from your friend if you run out.
